# One of the First Things

You should consider in buying a harness is the maker. If you know this you come pretty near knownig just what you will get. We do not profess to know many things, but we do know the harness-making businesknow just what every strap cut out of a side of leather should be used for and use it there. We know there are no harness more honestly made than ours, and that there is no better leather for service to be had than what we use. These are facts which we would like to aquaint you with. Come in; we will be pleased to show you where and why our harness are superiorreason, grade of material and method of manufacture. We are equipped to make up any style harness just as you specify, satisfaction guaranteed.
